## THE WORKSHOP

This practical workshop focuses on fundamental questions of teaching and learning as well as the organisation of teaching and learning processes. You will reflect on your own learning experiences, exchange ideas about teaching, and develop basic didactic knowledge about the subject areas of higher education. Furthermore, you will discover how to use key principles behind attention, memory, and learning to create lectures and seminars that enable your students to gain the knowledge and skills that you provide.

By the end of the course, you will be able to critically examine the teaching/learning culture of your own subject. You will have gained (new) individual strategies for academic teaching and you will have participated in collegial exchange beyond your own subject. The entire sequence „Design for How People Learn“ is a mandatory workshop of the basic module of the qualification programme „Professional Competence for Academic Teaching“ and includes, in addition to the three attendance days, a period of individual transfer and practice (including elements of collegial feedback and consultation).\*

### BY THE END OF THE COURSE, YOU WILL...

- know your own (action) framework and be able to recognize and use your academic freedom
- perceive your role as lecturer in higher education and be able to reflect on it
- know the premises of learning and use this knowledge for the design of your teaching practice
- be able to reflect on your own learning process and the possible influences on your understanding of teaching
- be able to reproduce the basic idea of „constructive alignment“ and to explain its significance for the design of teaching and learning processes
- understand that goals are central prior to the implementation of teaching and you are thus able to plan, implement and reflect on teaching in a targeted manner

## SUBJECT AREA

TEACHING AND  
LEARNING

## PREREQUISITES

There are no specific prerequisites for this course. However, participating in the qualification programme requires a non-binding initial interview.

THIS WORKSHOP CAN BE CREDITED  
TOWARDS **MODULE I**  
OF THE QUALIFICATION PROGRAMME.

\*Different rules may apply for participants of network partners, please get in touch with your local contact person prior to registration.

**THURS, 05.09.24 » 9–17 UHR**  
**FRI, 06.09.24 » 9–17 UHR**  
**FRI, 17.01.25 » 9–17 UHR**

Room: E5.333
